FY11 CONTINUING RESOLUTION TALKING POINTS

DOL Job Training Programs

Please use to guide phone conversations or in-person meetings with Congressional Members and/or staff.

IMMEDIATE ACTION: *Please support the inclusion of funding for the Department of Labor (DOL) Job Training Programs within the FY 2011 Continuing Resolution (H.R. 1) under development by Congress to ensure vital local and regional programs continue to boost the economy and create jobs.*

GENERAL STATEMENTS:

- Reforms to and consolidation of federal funding and programs should be looked to in order to save money and increase government efficiency, while decreasing the national debt.
- Domestic, discretionary programs, which are only 12 percent of the federal annual budget, are critical to the ability of local governments and regions to carry out their responsibilities as service providers for both the federal and state governments.
- Due to economic challenges, local governments have experienced reduced revenue streams due to decreased taxes (primarily property and sales) and major reductions in state financial assistance, while at the same time facing an increased demand for services. As a result, local governments of all sizes and in all parts of the nation have been forced to institute significant layoffs, furloughs and service reductions, which could continue for several years to come.
- Federal assistance to state and local governments and regions will help mitigate further layoffs. Current unemployment rates are already at 9.4 percent nationally.
- Federal investment in state, local and regional infrastructure produces jobs and promotes local economic development.
- Deficit reduction should not be accomplished by shifting costs to states and local governments, imposing unfunded mandates, or pre-empting local government programs or taxing authority.

RECOMMENDATIONS: Please consider the following when making **DOL Job Training Programs** funding determinations in H.R. 1:

- Important Job Training programs include State adult employment and training activities, youth activities, and dislocated worker employment and training activities (zeroed out), Dislocated Workers Assistance National Reserve (reduced by \$200M), Youthbuild (zeroed out), Pilot Projects for Transitional Jobs (reduced by \$48.9M), Ex-offender Activities (zeroed out), Energy Efficiency and Renewable Energy Jobs (zeroed out), Career Pathways Innovation Fund (zeroed out), and Workforce Data Quality Initiative (zeroed out). *NOTE: this is representative of many Workforce Investment Act cuts*
- Sufficient and sustained funding of programs designed to meet the workforce needs of businesses and the training needs of individuals to ensure competition in all sectors within the global marketplace, most notably in the programs of the Workforce Investment Act (WIA).
- The federal government investment should foster job training and workforce programs by leveraging public and private dollars, incentives, innovation and entrepreneurship to ensure that local governments have the tools and can build the capacity needed to encourage business development and job opportunity and transition to make communities vibrant, sustainable and economically competitive.
