About Broward MPO

The MPO provides essential multimodal transportation planning services to over 30 municipalities and Broward County, while also working with partners in Miami-Dade and Palm Beach counties to plan for the Southeast Florida region. The thriving region is home to almost six million residents, with almost two million in Broward County alone, and another two million anticipated to call Southeast Florida home in the next 20 years. Our region is the fourth largest urbanized area in the United States with a diverse population and opportunities for both urban and suburban lifestyles.

The Broward MPO is nationally recognized for its innovation in transportation planning. Our recently renovated and technology focused office is located in beautiful Fort Lauderdale, Florida, close to world famous attractions and recreational activities including Miami Beach, Palm Beach, Florida Keys, Everglades, fishing, boating, beautiful beaches, and Orlando and its theme parks. Our office has direct access to transit, rail, interstate and bike/pedestrian facilities for easy commuting options.

The MPO embraces diversity and is a place where employees are appreciated, respected and cultivated with excellent opportunities for professional development and growth. We foster a collaborative environment and encourage innovation and efficiency among employees. Our family atmosphere balanced with a highly motivated team of professionals, who support the success of the agency as well

as the individual, make it an ideal place to work.

The Candidate

The ideal candidate is an experienced transportation engineer with project management expertise and a passion for multimodal transportation. This person will have a desire to grow their career with a progressive goal-oriented organization focused on expanding transportation options for the public. The candidate should have experience and interest in the design and implementation of infrastructure with an emphasis on multimodal transportation, including bicycle and pedestrian facilities, safe routes to school, and transit prioritization. The successful candidate will have strong collaborative and problem solving skills and enjoy working with multiple partners to build consensus, communicate and identify technically feasible solutions that are acceptable to the public and elected officials. This person will have strong organizational skills, technical knowledge, an interest in working in a fast-paced environment, often as part of a team, and looking for an opportunity to learn new skills.
