Southern California Association of Governments

Nearly fifty years ago cities and counties in the six-county Southern California region joined together to form the Southern California Association of Governments (SCAG) for the purpose of fulfilling federal intergovernmental planning mandates, including managing a “continuing, cooperative, and comprehensive” regional transportation planning process. The six-county SCAG region includes Imperial, Los Angeles, Orange, Riverside, San Bernardino, and Ventura Counties as well as 191 cities covering 38,000 square miles. While the geographical boundaries of the region have remained the same, the social and institutional landscapes have changed substantially due to increased population, now spanning more than 19 million people.

Today, the region has grown to include five county transportation commissions, five regional air quality management districts, 14 sub-regional councils of governments, many new cities, and several more transit operators. In addition to the six counties, 191 cities in the region are member agencies of SCAG. Current regional planning and policy setting responsibilities of SCAG include the areas of air quality, housing, movement of goods, traffic congestion, transportation, water quality, and solid waste disposal planning, among others.

Decision-making occurs through SCAG’s Regional Council (RC), a government body composed of 86 city, and county elected officials and transportation commissioners. The agency also works in close partnership with its federal and state funding partners, Federal Highway Administration, Federal Transit Administration, Federal Aviation Administration, California Department of Transportation, and 14 sub-regional Councils of Governments (COGs) that represent SCAG’s member cities and counties.

SCAG headquarters are in the hub of busy downtown Los Angeles, at Figueroa and 7th streets in a multi-use hotel and office complex that features state-of-the-art architecture and technology. For ease of commuting, the LA office is located across the street from the Metro Red Line 7th Street Station and is easily accessible by commuter trains and buses serving surrounding areas.
