

NETWORK ENGINEER

Annual Salary Range: \$72,142 to \$111,820/year

First Review of Applications: March 25, 2022– Opened until filled

Expected Start Date: May/June 2022

Role

The Associate Network Engineer will be responsible for the management and security of information technology assets, networking infrastructure, and network monitoring systems that make up the complex Automated Regional Justice Information System (ARJIS) Enterprise System. This position will play an integral role in ensuring the confidentiality, integrity, and availability of public safety information shared among local, state, and federal law enforcement agencies. This opportunity is ideal for a technology professional with a strong interest in furthering their expertise in support of regional public safety initiatives.

Experience and Qualifications

A bachelor's degree with major course work in computer science, information technology, or a related field Training and/or certification, such as the CCNA (Cisco Certified Network Associate) or CCNP (Cisco Certified Network Professional). Equivalencies considered. At least three years of progressive career development, implementing and supporting secure networks; experience with network maintenance, configuration, and troubleshooting

Benefits and Salary

Our benefits include health, dental, and vision insurance as well as employee assistance, wellness, and work/life balance programs. Retirement and financial security benefits are provided through a pension plan and contribution to the SANDAG deferred compensation program. SANDAG offers flexible work schedules and employees are provided with paid time off and paid holidays. The candidate selected for this position will be expected to work in-person in SANDAG's San Diego office.
