

NETWORK ADMINISTRATOR

Annual Salary Range: \$72,142 to \$111,820

First Review of Applications: March 11, 2022– Opened until filled

Expected Start Date: April/May 2022

Role

The Network Administrator will be instrumental in assisting the Senior Information System Analyst in delivering IT solutions for SANDAG's business needs. This position is responsible for monitoring, maintaining, upgrading, implementing, and troubleshooting servers, networks, cloud services, applications, workstations, and peripheral devices under the guidance of the Senior Information Systems Analyst. The primary focus of this position is network administration through technology delivery and maintenance. This position is best suited for a professional with the capacity to establish, maintain, and foster cooperative working relationships, along with a can-do-attitude and willingness to support the team with activities and projects when needed. The candidate selected for this position will be expected to work in-person in the San Diego office.

Experience and Qualifications

The minimum education, training, and experience qualifications include a bachelor's degree with major course work in computer science, information technology, and at least three years of progressive career development supporting network, security, and virtual environments. Training and/or certification a plus. A combination of relevant education and recent work experience may be considered in lieu of a degree.

Benefits and Salary

Our benefits include health, dental, and vision insurance as well as employee assistance, wellness, and work/life balance programs. Retirement and financial security benefits are provided through a pension plan and contribution to the SANDAG deferred compensation program. SANDAG offers flexible work schedules and employees are provided with

paid time off and paid holidays. The candidate selected for this position will be expected to work in-person in SANDAG's San Diego office.
